

PROGRAM OBJECTIVES:

To improve water quality at public beaches to meet ocean bacterial standards and restore and protect coastal water quality.

WHAT PROJECTS WILL BE CONSIDERED FOR FUNDING?

Capital improvement projects that reduce bacteria at public beaches, improve sewer collection and septic systems, reduce storm water or urban runoff, or implement best management practices to restore or protect coastal water quality.

HOW MUCH FUNDING IS AVAILABLE?

\$43.7 million from Proposition 40. Additional funds may be available from Proposition 50.

WHO IS ELIGIBLE TO APPLY?

Local public agencies and non-profit organizations.

WHAT ARE THE MAXIMUM GRANT AMOUNTS & MATCHING REQUIREMENTS?

\$5 million per project. The State Water Board may cap funds for an agency at \$5 million and limit wastewater infrastructure projects to 25% grant funding. If Proposition 50 funding is added to the Program, the State Water Board will issue guidelines for implementation of the Program.

WHEN IS IT AVAILABLE?

Proposition 40 funds are being distributed in two phases. Projects have already been selected for Phase I. Phase II funding is anticipated in 2005. Proposition 40 grant funds are available until December 31, 2006.

WHAT COSTS ARE ELIGIBLE FOR FUNDING?

- Planning
- Design
- Construction
- Monitoring and Reporting

FOR MORE INFORMATION:

- Refer to the Clean Beaches Program Web site at <http://www.swrcb.ca.gov/cwphome/beaches/>
- Contact the Clean Beaches Program Manager at (916) 341-5698 or stevensc@swrcb.ca.gov

PROGRAM OBJECTIVES:

To reduce or eliminate nonpoint source pollution discharged to surface waters from irrigated agricultural lands.

WHAT PROJECTS WILL BE CONSIDERED FOR FUNDING?

- Monitoring projects that define water quality problems and sources of pollutants from irrigated agricultural land.
- Projects proposing:
 - management practices
 - demonstration & research
 - effectiveness monitoring
 - education and outreach

HOW MUCH FUNDING IS AVAILABLE?

State Proposition 40 & 50 Funds	Federal Section 319(h) Funds	Total
\$20.9 million*	\$5.5 million	\$26.4 million*

*An additional \$20 million is proposed in the 2004/2005 Budget.

WHO IS ELIGIBLE TO APPLY?

All public agencies and non-profit organizations.

WHAT ARE THE MAXIMUM GRANT AMOUNTS & MATCHING FUND REQUIREMENTS?

	Maximum Grant per Project	Required Funding Match
Monitoring Projects		
State Bond Funded:	\$500,000	50%
Implementation Projects		
State Bond Funded:	\$1,000,000	20%
Section 319(h) Funded:	\$500,000	20%

WHAT COSTS ARE ELIGIBLE FOR FUNDING?

All costs associated with the planning, design, and implementation of approved projects.

WHEN WILL THE GRANT FUNDING PROCESS BE READY?

- September 2004: A Solicitation Notice requesting project proposals will be posted on the State Water Board Web site at <http://www.swrcb.ca.gov/>.
- April 2005: Funding for selected projects will be available on a reimbursement basis.

FOR MORE INFORMATION:

- Refer to the draft guidelines at: <http://www.swrcb.ca.gov/funding/AWQGP/index.html>
- Contact the Agricultural Grant Program Manager at (916) 341-5513 or AWQGP@swrcb.ca.gov.

SMALL COMMUNITY WASTEWATER GRANT PROGRAM

PROGRAM OBJECTIVES:

To assist small communities to meet water pollution control requirements.

WHAT PROJECTS WILL BE CONSIDERED FOR FUNDING?

- Projects that install or upgrade wastewater treatment facilities or sewer collection systems in small, needy communities to meet current or anticipated waste discharge requirements.
- Projects that provide small, needy communities with the opportunity to explore treatment improvement options through planning and design grants.
- Projects to install or replace sewer systems in communities that lack adequate sewers.
- Projects to assist communities with population growth pressures, to assist in the redesign and expansion of existing wastewater collection and treatment systems.

HOW MUCH FUNDING IS AVAILABLE?

Approximately \$30 million is currently available. Additional Proposition 50 funds are anticipated. Loan funds are also available from the State Revolving Fund program.

WHEN IS IT AVAILABLE?

The State Water Board and the Regional Water Boards are developing a Competitive Project List.

WHO IS ELIGIBLE TO APPLY?

Cities, towns, counties, districts, Indian tribes, or other public entities with a population less than 20,000. The applicant must have jurisdiction over disposal of sewage and subject to a permit issued by the Regional Water Board. The community must have an annual median household income of \$37,994 or less, and not be a second home community. Program guidelines are available on our Web site (see address below).

WHAT COSTS ARE ELIGIBLE FOR FUNDING?

- Planning and design.
- Purchase of land necessary for facilities.
- Engineering and administrative costs.
- Construction of wastewater treatment facilities, collection systems, interceptors, and outfalls.

WHAT ARE THE MAXIMUM GRANT AMOUNTS & MATCHING REQUIREMENTS?

Up to 90% of eligible costs depending on median household income with an absolute maximum of \$2 million per project and per agency.

FOR MORE INFORMATION

- Refer to the Small Community Wastewater Grant Program web site at <http://www.swrcb.ca.gov/cwphome/scwg/index.html>.
- Contact the Small Community Wastewater Grant Program Manager at (916) 341-5720 or kirnd@swrcb.ca.gov.

WATER RECYCLING GRANT PROGRAM

PROGRAM OBJECTIVES:

- To augment state and local water supplies.
- To assist with implementation of the CalFed Bay-Delta Programs.

WHAT PROJECTS WILL BE CONSIDERED FOR FUNDING?

- Planning studies that examine the feasibility of water recycling facilities to augment state and local water supplies.
- Constructing water recycling facilities to replace the use of State Water Project water. Eligible projects will demonstrate direct benefits to the State's Delta system.

HOW MUCH FUNDING IS AVAILABLE?

Approximately \$42 million is available from Proposition 50 for construction of water recycling facilities. If funds are available, a water recycling construction project may be funded with low interest loan funds from the State Revolving Fund program. Additional funds are available from Proposition 13 for facility planning studies and a limited number of construction projects.

WHEN IS IT AVAILABLE?

The State Water Board anticipates adopting the Water Recycling funding guidelines in October 2004. Funding will be made available after adoption of the guidelines.

WHO IS ELIGIBLE TO APPLY?

Public agencies.

WHAT COSTS ARE ELIGIBLE FOR FUNDING?

- For facility planning studies: costs associated with preparation of the final planning and environmental documents.
- For construction of water recycling facilities: actual construction costs plus a 15% allowance for engineering, legal, and administration (ELA) costs.

WHAT ARE THE MAXIMUM GRANT AMOUNTS & MATCHING REQUIREMENTS?

- For facility planning studies: 50% of eligible study costs up to a maximum of \$75,000.
- For construction of water recycling facilities: 25% of eligible construction and ELA costs up to a maximum of \$5 million.

FOR MORE INFORMATION:

- See the Water Recycling Program Web site at <http://www.swrcb.ca.gov/recycling/index.html>.
- Contact the Water Recycling Grant Program Manager at (916) 341-5513 or dmessina@swrcb.ca.gov.

**FEDERAL 319
NONPOINT SOURCE
IMPLEMENTATION
GRANT PROGRAM**

PROGRAM OBJECTIVES:

- To reduce, eliminate, or prevent water pollution from polluted runoff and enhance water quality in impaired waters.
- To implement provisions of Total Maximum Daily Loads (TMDLs) to correct water quality impairments.
- To implement activities consistent with California's Nonpoint Source Pollution Control Program to reduce and prevent pollutants that threaten or impair surface and ground waters.

WHAT PROJECTS WILL BE CONSIDERED FOR FUNDING?

Projects that implement TMDLs in watershed based plans and projects that implement management activities consistent with the *Plan for California's Non-point Source Pollution Control Program* (NPS Program Plan).

HOW MUCH FUNDING IS AVAILABLE?

Approximately \$5 to 6 million annually based on the federal appropriation for nonpoint source pollution control projects.

WHEN IS IT AVAILABLE?

Funds are appropriated on an annual basis.

WHO IS ELIGIBLE TO APPLY?

Local governmental agencies (including special districts, e.g., resource conservation districts or water districts), nonprofit organizations, Indian tribes, and educational institutions. State or federal agencies may qualify if they are collaborating with local entities and are involved in watershed management or are proposing a statewide project.

WHAT COSTS ARE ELIGIBLE FOR FUNDING?

Management practices or measures (as identified in the NPS Program Plan), TMDL implementation, technology transfers, demonstration projects, pollution prevention, technical assistance, restoration, citizen monitoring, and public education and outreach.

WHAT ARE THE MAXIMUM GRANT AMOUNTS & MATCHING REQUIREMENTS?

\$500,000 grant per project. Matching requirements are identified in the Request for Proposals.

FOR MORE INFORMATION:

Contact the Federal 319 Grant Program Manager at (916) 341-5498 or ljurkvi@swrcb.ca.gov.

COMING
SOON

INTEGRATED REGIONAL WATER MANAGEMENT GRANT PROGRAM:

- \$380 million available.
- Jointly administered by Department of Water Resources and the State Water Board.
- Program is intended to protect communities from drought, protect and improve water quality, and improve local water security by reducing dependence on imported water.
- Guidelines are anticipated in Fall 2004.

CONSOLIDATED WATERSHED/NONPOINT SOURCE POLLUTION CONTROL GRANT PROGRAMS:

- Approximately \$150 million available.
- A consolidated program offering grants for:
 - Nonpoint Source Pollution Control
 - Integrated Watershed Management
 - Urban Storm Water
- Additional funds may be available from Proposition 50 for Coastal Nonpoint Source Pollution Control.
- Grant funds are tentatively scheduled for release in 2005.

SMALL COMMUNITY GROUNDWATER GRANT PROGRAM:

- \$9.5 million appropriated from Proposition 40.
- Program is intended to assist small communities in complying with groundwater contaminant level requirements, especially those associated with arsenic and nitrate.
- Guidelines are anticipated in Spring 2005.

DAIRY WATER QUALITY GRANT PROGRAM:

- \$5 million available.
- Program is intended to address water quality problems associated with dairies.
- Guidelines are anticipated in Summer 2005.

FOR MORE INFORMATION:

Interested parties should periodically check the funding section on the State Water Resources Control Board's Web site at
<http://www.swrcb.ca.gov/funding/index.html>.
